
PRESS RELEASE

Luminox Navy SEALs 3600 Series
Officially Licensed by the Department of the Navy
Created with input from US Navy SEALs

SINGAPORE, JUNE 2019 - The Navy SEALs are America's premiere defenders, willing to go to any lengths to preserve freedom. For many years, Luminox has been supplying to the Navy SEALs and supporting their missions by developing the highest quality timepieces built to withstand the rigors that these warriors put them through.

Luminox is introducing a new collection of Navy SEAL timepieces, the 3600 Series. The collection is designed with the usual attention to detail while focusing on functionality. The Navy SEAL 3600 series is the first to have the new vertical arrangement of Luminox's proprietary light technology that uses tritium light tubes. This results in a different look, opening up the dial while still guaranteeing up to 25 years of ultimate night visibility. Luminox's LLT technology doesn't rely on anything external to provide luminosity.

With the needs of the Navy SEALs in mind, the Navy SEAL 3600 series comes with cases made of Carbonox™, a carbon-based material exclusive to Luminox, which is light, hypoallergenic and extremely durable and resistant. Due to the carbon fibers being visible on the surface of the case, it makes for a visually arresting texture. The models are water-resistant up to 200 meters, using a stainless-steel screw down crown and case back. Special gaskets and case design allow the watches to perform flawlessly throughout the dive with improved performance on water resistance due to this new construction.

The Navy SEAL 3600 Series comes in three variations - black with yellow accents; olive green with red accents; and blue with orange accents, and with genuine rubber strap or webbing NATO strap. All three versions feature a hydraulically-stamped dial protected by a sapphire crystal with anti-reflective coating and a sapphire glass magnifier for the date display. The Navy SEAL 3600 Series is the next step in the Navy SEAL collection, slotting in between the 3500 Series and the 3800 Series.

Adhering to Luminox's slogan, "American Born, Swiss Made", these watches are Swiss made and designed for use by the American military (and have been adopted by military, law enforcement and first responders around the world), using the best technology in Swiss watchmaking, including a Swiss quartz movement from Ronda.

Sapphire crystal with AR-coating

Carbonox™ case with turning bezel

Stainless Steel screwed in case back

Stainless Steel screw down crown

Hydraulic stamped dial

Vertical LLTs

Genuine rubber strap with Carbonox™ buckle

ALWAYS VISIBLE

Navy SEALs, law enforcement, emergency personnel and more wear Luminox watches, and these professionals need to be able to see the time no matter the conditions. That's why Luminox uses tiny tritium gas tubes, which will provide illumination for up to 25 years. Unlike other luminosity systems, which depend on exterior light sources to charge luminous paint or a pushbutton to illuminate the watch, the luminosity is built right into Luminox watches, ensuring that you will always be able to see the time, no matter the conditions.

ABOUT LUMI-NOX

Luminox, the original self-powered luminous watch brand, is the watch of choice for U.S. Navy SEALs, The Icelandic Association for Search and Rescue (ICE-SAR), Lockheed Martin's F-117 Nighthawk™ stealth and other jet fighter pilots, elite forces worldwide and professional divers. Luminox watches glow up to 25 years in any light condition. Always Visible, tough, powerful and accurate, Swiss-Made Luminox is the ultimate night vision gear for rugged outdoorsmen and other peak performers.

AVAILABILITY

Luminox watches are available at leading department stores (TANGS at Tang Plaza and VivoCity, Robinsons The Heeren, OG Orchard Point, OG Albert) and authorised watch retailers.
